

Model	CT-RZ-100AWD	CR-70AWD
Suitable material	HDPE/LDPE/LLDPE/PP	Printed HDPE/LDPE/LLDPE/PP
HDPE/LDPE/LLDPE/PP	Waste film/sheet/bottle	
Capacity (kg/hr)	HDPE: 80-110 kg/hr	HDPE: 80-110 kg/hr
	LDPE: 100- 140 kg/hr	LDPE: 100- 140 kg/hr
	PP: 60- 80 kg/hr	PP: 60- 80 kg/hr
Screw & L/D	85mm , 20/1	85mm, 32/1
Main motor	40 HP	40 HP
Degassing zone	none	1 zone with vacuum degassing
Main Components		
1. crusher (20HP)	5. side feeding system	9. water cooling tank
2. scraps conveyer blower	6. main extruder	10. centrifuge
3. cyclone tank	7. hydraulic screen changer	11. pellet collection tank
4. storage silo	8. die face cutting system	12. rigid material feeding system(options)

Rigid material feeding system

Side feeding screw conveyor

MATILA INDUSTRIAL CO., LTD.

No. 186, Chung Hsiao Road, Pali, Taipei Hsien, Taiwan 249

Tel: 886-2-2619 2222

CT-RZ-100AWD (without degassing)
CR-70AWD (with degassing)

Auto Feeding Water cooling type PE/PP Plastic film/sheet/bottle Recycle machine

Features

- Compact design, easy installation and operation
- Inverter control side feeding device for stable output
- Germany made gear box ensure durable working life
- Vertical type water cooling die face cutting system for good quality pellet
- Closed type water cooling circular system, less water consumption
- Powerful centrifuge ensure the pellet dry Low power consumption, high production
